> 100% handmade in Portugal;

> Fully Support Customizations and Bespoke Hardware, where there will be always endless possibilities for turning your dreams into reality;
WHAT TO EXPECT

Our bespoke ironmongery service includes:

> Designing products to fit your specification;

> Manufacture of ironmongery from a simple sketch managing the cost production to the High-end expectation;

> The ability Manufacture any of our products in to a bespoke with measures and finish of your choice;

> Lead time production: 10 to 12 Weeks;

STEP 1

THE VISION

We design your idea

If you have an idea, we can design and develop a concept of your product and can help you present to your client bringing your design to life. We can assist you with the technical aspects and will guide you through materials, manufacturing options, dimensions and finishes.

> Initial up charge: 200€ 30 cm sketch
   400€ bigger than 30 cm sketch

> Sketch lead time: up to 10 week days
STEP 2

PRICING & ORDERING

After the design is approved we provide the project budget and delivery.

Once the design is approved our designers will outline estimated pricing to determine if this fits within the project budget.

After the Sketch approval we have 5 Days to present the quotation to the client.

The First Quotation will not include Shipping Cost.

Whilst we do not have a minimum order quantity, in this stage we will discriminate the cost per quantity of all the pieces you required.
STEP 3
DESIGNING
Design process and finishings

During the design process we will keep you updated sharing images and pictures, or even a fully functioning finished brass prototype for you to sign off with your client.

STEP 4
DELIVERY

Follow up the process and share with us the project

Once your products are made, they will undergo rigorous quality control checks before being packaged up and dispatched to your address. Pictures will be sent during the process so you can follow the ordering process.
